

Privacy Policy

The Infinity app is a user-friendly, secure app. With its user-friendly interface and easy-to-use features, INFINITY provides a highly secure portal to access programs based on USDT currency. In this application, users can send and receive USDT coins instantly in a few simple steps.

All transactions made on the Infinity network are secure. The INFINITY team is constantly releasing new updates to the application to ensure our users to benefit our best security releases, from and to their crypto wallet.

Confidentiality, only KYC can allow you to register and purchase your plans. Dedicated support and help center in the app with live chat.

INFINITY won't communicate your personal data to another third party.

INFINITY could use your personal data only if you need to recover your password or email address. In this case, INFINITY will ask you to verify your identity and will check it with your personal data.

Simple and easy to use user interface.

100% secure system. Transaction history with details on the dashboard and by email.

If you have any questions or requests, please contact our support team or send us a message at **support@infinity-coin.io**
